OVERVIEW

Protecting Your Practice Starts with Knowing Where It's Vulnerable

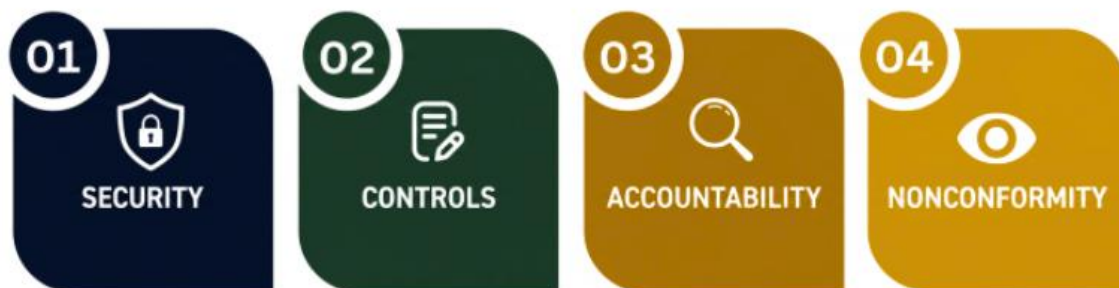

Every dental practice relies on systems of trust: financial controls, operational safeguards, and the people who carry them out.

When those systems drift, even slightly, the result is predictable: revenue leakage, procedural shortcuts, accountability gaps, and, in some cases, financial misconduct.

FOURCORE is a forensic evaluation that uncovers and documents security flaws, control failures, accountability gaps, and operational or financial nonconformities in your practice, giving you a clear, evidence-based view of risk exposure and the remedial actions needed to protect revenue, compliance, and operational integrity.

WHAT FOURCORE DOES

FOURCORE examines four pillars of your dental practice to surface the deviations, irregularities, and control failures that put you at risk.

Each engagement looks for and documents:

- **Security** vulnerabilities
- **Control** weaknesses
- **Accountability** gaps
- **Nonconforming** behaviors

WHY FOURCORE IS IMPORTANT

Control gaps, security weaknesses, and nonconforming behaviors lead to:

- Revenue leakage
- Increased fraud opportunities
- Compliance issues
- Operational instability

FOURCORE exposes these issues early, before they become losses.

WHAT WE DELIVER

- A written report of findings and risks
- Clear explanations of root causes
- A prioritized corrective-action roadmap

WHO IT'S FOR

Practices that want:

- Clarity about how the business actually runs
- Accountability across the team
- Reduced exposure to fraud and revenue leakage
- Operational stability and stronger controls
- A defensible, third-party review of their security, controls, and accountability

WHY CHOOSE HILTZ & ASSOCIATES

We bring forensic discipline, operational insight, and dental-industry expertise to every engagement, delivering truth, clarity, and a path forward.

TAKE CONTROL OF YOUR PRACTICE'S INTEGRITY

FOURCORE gives you the evidence you need to protect your revenue, your team, and your reputation.

GETTING STARTED

If you’re ready to understand your practice’s true risk posture, and eliminate the nonconformities that threaten it, FOURCORE is the place to start.

CHOOSE THE LEVEL THAT'S RIGHT FOR YOU

Foundation Level: For owners who want **clarity** and a preventative forensic review.

Enhanced Level: For owners who want **clarity plus answers**, and the tier most practices choose.

FEATURE / DELIVERABLE	FOUNDATION \$4,600*	ENHANCED \$6,800*
Security Assessment	✓ Baseline access & permissions review	✓ Expanded access mapping
Controls Assessment	✓ Workflow & reconciliation review	✓ Pattern analysis & bypass detection
Accountability Mapping	✓ Role clarity & oversight gaps	✓ Behavioural pattern review
Nonconformity Detection	✓ Identification of deviations	✓ Classification + severity scoring
Audit Log Review	✓ Targeted	✓ Expanded
Adjustment Review	✓ Basic documentation check	✓ Root-cause analysis
Risk-Ranked Exposure Matrix	✓ Included	✓ Enhanced
Corrective-Action Roadmap	✓ Included	✓ Prioritized
Best For	Stable practices seeking clarity	Practices with drift or emerging concerns

***Standard Pricing Applies**

- Maximum of 3 active bank accounts
- Annual revenue up to \$1.5M
- 1 owner

HOW DO I KNOW WHICH FOURCORE TIER IS RIGHT FOR MY PRACTICE?

It depends on the level of clarity you need.

- **Foundation** gives you a baseline forensic review.
- **Enhanced** adds transactional and behavioural analysis.

If you're unsure, choose Enhanced. It balances depth and value, and it's what most practices select.

WHAT MAKES THE ENHANCED LEVEL MORE EXPENSIVE?

Enhanced reflects a deeper level of investigation:

- More data reviewed
- More systems correlated
- More transactional analysis
- Greater assurance in the findings
- More time spent reconstructing irregularities

The price difference reflects the increase in investigative intensity.
